Year: 2017

Serial #: S60D 1064

Stock: GEN1064

Status: Used

Location: PA

Product Hours: 4686

Product Drive: 4wd

Fuel Type: Diesel

Working Height: 71

Engine Make: Deutz

Tires: Foamfilled

Description

The **2017 Genie S65 Boom Lift** is a reliable telescopic boom designed to deliver exceptional horizontal outreach and stable lifting performance for a wide range of job-site applications. Built with Genie's proven engineering and rugged design, this 65-foot class lift provides the height, reach, and durability professionals need for construction, maintenance, industrial, and facility work.

The S65 offers smooth, proportional controls that allow operators to position the platform with precision, even when working at full extension. Its telescopic boom delivers outstanding horizontal reach, making it ideal for jobs that require access over large obstacles or wide work areas. The machine's robust drive system provides excellent traction and gradeability, supporting confident operation across uneven terrain.

With a spacious platform, solid lift capacity, and dependable power options, the 2017 Genie S65 is engineered for productivity and efficiency. Operators appreciate its intuitive layout, reliable performance, and low maintenance requirements—making it a strong addition to rental fleets or long-term equipment lineups. When height, reach, and durability are essential, the S65 delivers consistent results.

Frequently Asked Questions About Genie Telescopic Boom Lifts

What is a Genie telescopic boom lift?

A **Genie telescopic boom lift** (also called a straight boom lift) is an aerial work platform with a straight, extendable arm that provides **maximum horizontal and vertical reach**. Unlike articulating boom lifts, telescopic models extend in a straight line, making them ideal for **jobs that require long, direct access** to high areas.

Where are Genie telescopic boom lifts commonly used?

What's the difference between telescopic and articulating boom lifts?
