2015 Genie Z-30/20N Electric Boom Lift

\$19,900.00

Product Information

Make: GENIE

Model: Z30/20N

Year: 2015

Serial #: Z30N15 17078

Stock: GEN17078

Status: Used

Location: PA

Product Hours: 278

Product Drive: 2wd

Fuel Type: Electric

Working Height: 36

Engine Make: N/A

Tires: Nonmarking

Description

The **2015 Genie Z30/20N Electric Boom Lift** is a compact articulating aerial platform designed for quiet, zero-emission operation in warehouses, industrial facilities, and other indoor work environments. This **Genie Z30/20N electric boom lift** provides excellent maneuverability in tight spaces while delivering reliable vertical and horizontal reach for maintenance and construction applications.

With a **30-foot platform height and 35-foot working height**, the Genie Z30/20N electric boom lift allows operators to safely access elevated work areas while navigating narrow aisles and congested work zones. Its electric drive system ensures smooth operation, reduced operating costs, and environmentally friendly performance compared to traditional diesel or gas lifts.

The articulating boom and jib provide the flexibility needed to reach up and over obstacles, making this lift ideal for facility maintenance, warehouse work, electrical installation, and equipment servicing. The compact chassis and non-marking tires allow the Genie Z30/20N to operate safely on finished floors without damaging surfaces.

Built with Genie's reputation for durability and reliability, the **Genie Z30/20N electric boom lift** offers excellent performance for contractors and facility managers who need dependable indoor aerial access equipment.

For official specifications and safety guidance, see **Genie Industries product documentation**.

Key Specs

- Machine Type: Electric Articulating Boom Lift
- Platform Height: 30 ft
- Working Height: 35 ft
- Horizontal Outreach: 20 ft 3 in
- Lift Capacity: 500 lbs
- Platform Size: 30 in x 46 in
- Power Source: 48V DC Electric
- Drive Type: Electric Drive
- Turning Radius: Zero Inside
- Tire Type: Non-Marking Solid
- Machine Weight: 14,200 lbs

Key Features

- Zero-emission electric operation ideal for indoor work
- Compact design for narrow aisles and tight workspaces
- Articulating boom with jib for reaching over obstacles
- Smooth proportional controls for precise positioning
- Non-marking tires protect warehouse and facility floors
- Quiet electric drive system for indoor environments
- Tight turning radius for superior maneuverability
- Reliable Genie engineering and durable components
- Ideal for maintenance, electrical work, and installations
